PROFESSIONAL SUMMARY

Motivated Computer Science student with hands-on experience in full-stack web development using MERN stack. Strong foundation in Data Structures & Algorithms, Object-Oriented Programming, and Database Management Systems. Proven ability to design and implement responsive web applications with RESTful APIs. Quick learner with excellent problem-solving skills and adaptability in team environments. Seeking software engineering opportunities to leverage technical expertise and contribute to innovative solutions.

TECHNICAL SKILLS

Programming Languages: Python, Java, C, JavaScript, SQL

Web Development: HTML5, CSS3, React.js, Node.js, Express.js, JavaScript ES6+

Databases: MongoDB, MySQL, Database Design, Query Optimization

Tools & Technologies: Git, GitHub, VS Code, Postman, npm, RESTful APIs

Core Competencies: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Operating Systems, Computer Networks, Database Management Systems, Cloud Computing Fundamentals, Machine Learning Basics, Agile Development

PROJECTS

WanderlustHome – Travel & Stay Web Platform | MERN Stack

January 2024 – June 2024

- Developed full-stack travel booking platform using MERN stack (MongoDB, Express.js, React.js, Node.js) with complete CRUD functionality.
- Designed responsive user interface with React.js and CSS3, ensuring cross-browser compatibility and mobile-first approach.
- Built secure RESTful APIs using Node.js and Express.js for user authentication, booking management, and property listings.
- Implemented efficient MongoDB database schema with proper indexing for optimized data retrieval and storage of user profiles and property information.

E-Commerce Product Catalog | React.js, JavaScript

2024

- Created dynamic product catalog application using React.js with filtering, sorting, and search functionality.
- Implemented state management using React Hooks (useState, useEffect) for efficient component rendering.
- Integrated third-party APIs for real-time product data and pricing information.

Task Management System | HTML, CSS, JavaScript

2024

- Built interactive task management application with features for adding, editing, and deleting tasks with priority levels.
- Implemented local storage functionality for data persistence across browser sessions.
- Designed clean and intuitive UI using modern CSS techniques including Flexbox and Grid layout.

EDUCATION

Bachelor of Computer Applications (BCA)

Dr. Bhimrao Ambedkar University, Agra | 2023 – 2026 (Expected)

Relevant Coursework: Data Structures & Algorithms, Operating Systems, Database Management Systems, Computer Networks, Compiler Design, Artificial Intelligence & Machine Learning, Software Engineering, Web Technologies

CERTIFICATIONS & TRAINING

- Java + Data Structures and Algorithms (2025)

- Full Stack Web Development – MERN Stack (2024)
- React.js Development (2024)
- Database Management with MongoDB (2024)

ADDITIONAL INFORMATION

Languages: English (Fluent), Hindi (Native)

Open Source: Active contributor to open-source projects on GitHub

Problem Solving: Regular practice on competitive programming platforms for DSA improvement

Interests: Web Development, Machine Learning, Cloud Computing, Mobile App Development

Soft Skills: Team collaboration, effective communication, quick learner, problem-solving, adaptability, time management
